HotSpot

HotSpots are places that offer free access to PressReader via wifi. All public libraries in Troms are HotSpots. On the HotSpot map you can see where in the world you can access PressReader.

**The public libraries in Troms offer you
FREE access to thousands of newspapers
and magazines from around the world.**

Inside the library:

Read newspapers and magazines on the library's computers.
Download the PressReader app to your tablet or smart phone and get complimentary access.

Outside the library:

When you have accessed PressReader at the library, you have free access to PressReader on your tablet or smartphone for 7 days.

The PressReader app is free and can be downloaded from Appstore or Google Play.

Open the app when at your local library. You will have to download the publication you want to read. When signed in to the app on any of your devices, you will be able to download unlimited publications.

The publication will be available on your device until you delete it.
